

# Quick Start Guide

## Submitting photos from Capture One to RightsClick for Copyright Registration

1

Add the RightsClick plugin to Capture One and enter your RightsClick login credentials to link the applications.

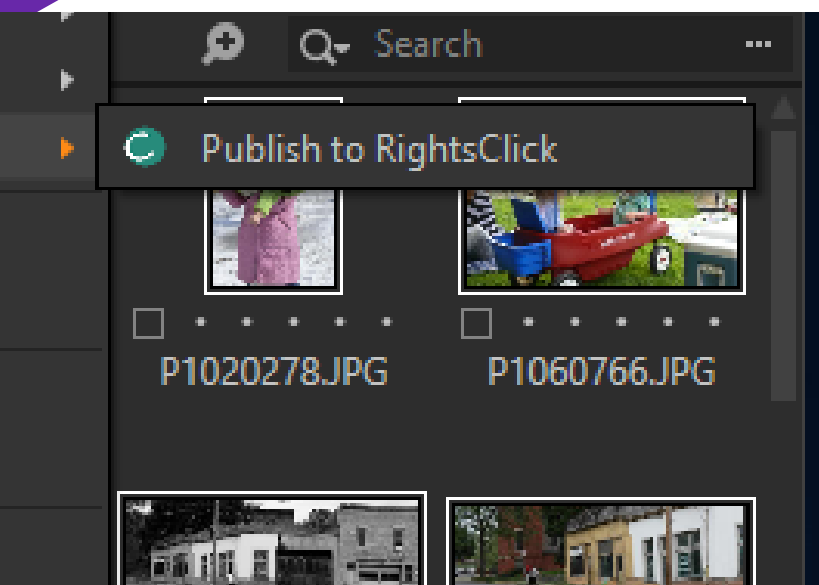

Create a RightsClick account at <https://app.rightsclick.com/login/sign-up>

2

Select the photos you want to register as a group and Publish to RightsClick.

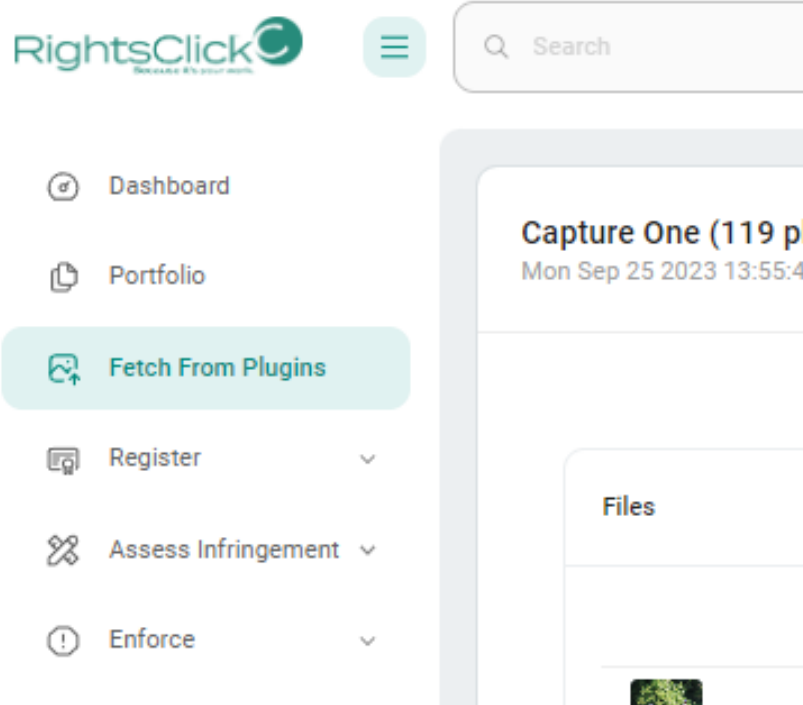

Mac: Image Menu/Publish  
PC: Right-click any image in the selected group.

We recommend JPEGs 3mb or less and short file names, if possible. Do not use foreign-language characters or punctuation other than underscores.

3

In RightsClick, select Fetch From Plugins. The photos will load on the page. Then choose Add to Existing Project or Create a New Project.

4

In the Project, select all the images, click Update Selected, and use the tool to enter the copyright-related information for the whole group of photos.

**Update Title Data**

Please enter data to update Titles with (Only change the data that needs to be updated, other data will be left intact):

Type
